

I believe altering the existing rules on Broadcast ownership that would allow further "giantism" in the media world will take us away from Freedom of the Press. In essence, a few large corporations will control ALL THAT WE SEE. I find this frightening and non-democratic. I believe that the rules should stand as they are. I also believe the the major corporations should be BROKEN UP into smaller independent companies. I don't think "BIG IS BETTER". I was appalled to know that companies like GE, VIACOM, BUENA VISTA etc. have control of what Americans see. This is a MONOPOLY in my opinion. The FCC needs to have more public opinion +/- or a vote by the nation before reducing restrictions on Broadcast Ownership.
